

EMPOWERMENT

~ SYNERGY ~

The purpose of this Empowerment is to recalibrate your entire energy hologram into the oneness vibration and a more intelligence human genetic.

Through our morphogenesis, we are learning how to live through the principle of one by consistently acknowledging that everything is part of a unified, interconnected whole.

From the constancy of feeling 'in synergy' with life, we can rise above the illusion of separateness and never dip into it ever again. We function more effectively in the external world because our foundation is anchored from a purer awareness, which is emotionally free from things of a dualistic nature.

Through synergy, we are empowering our personal sovereignty to fully live who we really are and the freedom that comes from this expression. It is then that we find great value and fully accept everyone else based on his or her authentic soul expression that is experiencing life in this unique schoolroom called Earth.

INVOCATIONS:

Use this invocation every day of the week, preferably in the morning as a way to begin your day feeling empowered as one with your Greater Self. Then, follow up this invocation with one or several affirmations.

AFFIRMATIONS:

There is one affirmation for each day of the week to help you remember who you are as a majestic creator being of light, love and tremendous wisdom. Keep affirming your Self as you step into this greater expression of who you really are.

WEEK 1

THE EMPOWERMENT OF SYNERGY

INVOCATION

RECALIBRATING INTO THE ONENESS VIBRATION

By and through the power of God, I invoke a complete recalibration of my entire energy hologram into the oneness vibration.

I ask that a great surge of universal light intelligence now move in, through and around my multi-body matrix, stimulating maximum synergy and fusion.

Divine Presence, please activate the deepest embodiment of compassionate love and personal sovereignty in my life expression.

May this vibrational shift within me radiate out to help accelerate the most profound revelations of unity consciousness in every sphere of life.

Thy Will be done.

WEEK 1

AFFIRMATIONS OF SYNERGY

- * My entire energy hologram is recalibrating into the oneness vibration.

- * When I regard all aspects of my uniqueness as part of one, unified whole, then that whole can flow through me and support me.

- * I am empowering my personal sovereignty by authentically expressing who I truly am and how I choose to express.

- * I fully accept and love everyone unconditionally based on their authentic self and their soul expression that is experiencing life in this unique schoolroom called Earth.

- * Compassionate love is the basis for all of my decisions. My love is all-inclusive and radiates to all of life. All is a reflection of the perfection of God, as creation.

- * When I expand into seeing the bigger picture and consistently regarding the 'whole' of the matter, then my body has to recalibrate into this particular vibrational resonance.

- * Any and every way that my vision and dreams reflect to me the understanding of my synergistic self, this will be reflected in my external world.

WEEK 2

THE EMPOWERMENT OF SYNERGY

INVOCATION

TRANSCENDING THE DUALITY PROGRAM

In the name of transcendence, I invoke a much deeper attunement to the vast field of divine love that guides and sustains the entire Universe.

Through this frequency attunement, I invite the transforming power of Love's intelligence to help restore an expanded awareness of wholeness to my mind.

Beloved Creator, please empower a greater development of my multidimensional abilities so I can stay firmly anchored in a more holistic worldview at all times.

May the light of Presence now go forth to activate the highest levels of divine perception in the one consciousness of humanity.

Let the truth of our holiness set us free.

And so it is.

WEEK 2

AFFIRMATIONS OF SYNERGY

- * There is only one overarching power in the Universe and this field of energy is omnipresent, pure divine love.

- * All dualities are mind-born illusions that keep me divided. Therefore, I choose to no longer perceive things from the lens of duality, as either black or white, but with multidimensional, holistic view.

- * Through my morphogenesis, I am learning how to live through the principle of one by consistently acknowledging that everything is part of a unified, synergistic whole. This omnipotent, sacred wholeness is everywhere present.

- * From the constancy of feeling coherently connected, I can rise above the illusion of separateness and never dip into it ever again.

- * Transcending duality means to be the 'unattached observer' of what is happening all around me, while not allowing myself to get triggered, or pulled into anything of a divisive vibration.

- * Through divine perception, I am in constant observation and keen discernment in how I am qualifying both my talk and my walk.

- * One of the greatest services that I can give to life is to simply be a bright beacon and neutralizing pillar while selflessly invoking Divinity... to be in this world, but not of it.

WEEK 3

THE EMPOWERMENT OF SYNERGY

INVOCATION

RECONNECTION WITH SOURCE

From the silent sanctuary of my heart, I call forth a profound reconnection with my beloved Source of life.

Through this grace of union,

- * My beautiful being is opening to receive the blessing of divine intimacy.
- * The universal light is empowering the deepest states of reconnection within me.
- * My whole existence is aligning with the absolute perfection of my Creator.

Divine Presence, please send these jewels of unified awareness through the fields of higher consciousness to further support the spiritual reunification of the entire human race.

May Your loving Will be done.

WEEK 3

AFFIRMATIONS OF SYNERGY

- * God dwells in me and I dwell in this magnificent creation field. I live, move and have my entire being inside the body of absolute perfection.

- * Everything is available to me while living inside the awareness of this all pervasive omnipresence that influences every aspect of my life and every twitch of my muscles.

- * Creation is having its unique experience... through me. Its reality as 'me' is eternally in motion, always creating new patterns of experience in my life.

- * Divine Love knows no opposite. By placing all of my attention to be consciously merged with the source of my every action, I can more easily transcend the illusion of separated identity.

- * I am attuned with and have an intimate relationship with my Creator. Therefore, I always go with what I believe to be true for me.

- * The whole essence of truth cannot be transmitted from any other. All answers are to be found in the sanctuary of my own heart.

- * My idea of truth will always change as my perceptions change. Since my consciousness is now ascending, it is not uncommon for my personal truth to change every day.

WEEK 4

THE EMPOWERMENT OF SYNERGY

INVOCATION

REUNION WITH MY SYNERGISTIC GENDER SELF

In the name of morphogenesis, I ask that my energy channels be opened much wider to receive the incoming streams of transforming solar radiation.

As this light moves throughout my body intelligence, I invoke and give thanks for the total expression of my gender balanced Divine Human.

Beloved Presence, please initiate greater whole-brain functioning within me now, that I may experience the highest levels of unity in my perception.

May this field of synergistic awareness now go forth to effect a deep alchemical transmutation in the collective body of humanity.

Let the androgynous Self within us all emerge in full divine glory.

And so it is.

Thy Will be done.

WEEK 4

AFFIRMATIONS OF SYNERGY

* My inner male and female polarities are equalized and balanced. This is because I always give empowerment to both my masculine and feminine qualities.

* I operate from whole brain functioning. My hemispheric halves are united, fused as one.

* I am living my most authentic self and able to cognize through a unified posture.

* It is from this reintegrated wholeness that I can interpret information from the levels of unity consciousness. I am rising up as an infinitely powerful and incredibly loving human being.

* The human personality achieves a higher level of fusion with Source, and the self is seen as neither male nor female, but as one blended and balanced whole.

* As I open into the energies of morphogenesis and allow for deeper physical restructuring to continue in my own body, I simultaneously give great service to the human race.

* Through my willingness to completely remove the holographic imprint of duality from my own mindset, I help to transmute gender division from the macro levels.
