The Rite of Divine Wisdom

Through these pivotal Rites of Passage, we are realizing an increasing unity with all life and the essential oneness of the Self with all outer reflections. These initiations propel our step-by-step graduation into the great halls of wisdom.

Through this Rite, we are initiating the shift from an intellectual thinking human to an intelligent knowledge-based expression. The basis of this expression is an unfolding inclusiveness, an expanding perception that can vision far beyond the realm of mass human perception.

This is a group initiation that is a silent, steady and very powerful integration set into motion through the one motivating impulse to serve humanity.

It is the assimilation of pure wisdom, which supersedes the intellect through finely tuned sensitivity, intuition and the living of life through the higher mental faculties. It manifests outwardly in the selfless giving of personal energy and resource to the collective endeavor.

This is the initiatory stage when we remember our inherent knowledge. It is then that we serve as conscious knowers and co-creators with Earth's Divine Plan.

Defining Divine Wisdom

True wisdom unites. It is wholly concerned with the principle of one and the interconnectivity of all life. It is actuated and motivated through love and is intelligently applied to all of life's activities.

In this Rite, we are moving out of the faithful mind and into the knowing heart. Wisdom takes the place of intellectual understanding and transforms struggle, pain, hard work and all other limitations.

Pure wisdom and a pure heart are the two sides of the same motivating energy. The purity of the heart's feeling is fully dependent upon the guidance of discriminative wisdom. When the two come as one, we embody the illumined expression of love-wisdom.

Our daily life then functions through the reflective qualities such as true compassion and self-mastery with intuition and synchronicity being our most influential guides.
Intelligence comes from Unity
Intellect comes from Mind

To sincerely comprehend the intrinsic nature of wisdom, it is helpful to be aware of the distinction between the mind’s intellect and intuition’s intelligence acquired through Divine Wisdom.

The intellectual person is one whose mind is well developed with many facts and can operate accurately in a variety of mental functions.

While useful in traditional modes of learning, the mind’s intellect cannot understand the finer perceptions, which have their origin in unity consciousness. True unity cannot be actualized through thinking or reasoning.

Alternatively, one who has true intelligence has a keen ability to know the difference between the real and the unreal. This intelligence is fully aware of the illusions of life and can perceive the truths that are covered up by these same illusions.

Divine Wisdom comes as a result of the developed intuition, which makes it possible to comprehend through the heart intelligence, the legitimate nature of the unified reality.

Entering the Super Conscious Mind

Divine Wisdom is a result of the intuitive process of truly knowing oneself. To know oneself at the deepest level, is to simultaneously know the Divine Presence, within.

This is the key to developing Divine Wisdom. When we know the Self and the Presence as one, all of our great works may be accomplished instantly.

Divine Wisdom is developed through our increasing capacity as “thinkers” to enter into the super conscious mind housed within us.

To do this is to declare and authentically live our eternal unity with the Divine Presence, first and foremost. The physical body and everything else in our life comes into alignment as soon as we self-realize and embody this fundamental unity.

From this state of resonance with a more supreme mind, we open into the innate understanding that we already have all that we need within our own powerful being. It has only been through our own separated imaginings that we have experienced reflections of lack in our life.
We are Light Intelligence

Our brain is built upon God cells. We are endowed with brilliance and this has never left our human design. There is an intelligent instinct and directing influence that pervades every cell of our human form.

Our cells want to remember. They are waiting be released from the binding qualifying thought forms that clothe them in limitation.

It may simply be a matter of transitioning our thinking to engage a more dominant thought structure as one with Divine Mind in order to reach our highest potential to where “thought” can aspire.

* If you only see what is true for you, then this truth manifests.

* When you recognize perfection, you are this perfection. There is no other recognition than that.

* All is Divine Presence.

It is to seek and know the Presence first. When that is accomplished, then health and prosperity will be added. The attainment of true wisdom and everything else that we require is received as a matter of our human birthright.

May we uphold prominently in our mind the thought of Divine Presence, knowing positively that this is the one point from where all success originates and where all success emanates.

The Group Plan through Divine Wisdom

This Rite of Passage is purposed to take us into a more expanded field of unified awareness.

We may more deeply realize ourselves as part of an impenetrable group frequency that is supported through a vast, yet unseen, silent matrix of telepathic inter-relationship. This union is strengthened through our developing intuition, heart intelligence and unwavering alignment to Divine Will.

To fully actualize Divine Wisdom as an embodied expression is an on-going process of inclusive recognitions.

After each successive expansion into deepened awareness, we are guided to return to daily life to apply the initiation and to ground it through the discovery of its inherent reality and truth.

As we move throughout our day, we remain open to the ever-increasing streams of Divine Intuition, paying keen attention to what new knowledge must next be acquired to aide us in our advancing service to humanity.
PRACTICE AND INTEGRATION

This Rite is purposed to take us into a more expanded field of unified consciousness. This initiates the stage where we remember our inherent knowledge. We then serve as conscious knowers and co-creators with Earth’s Divine Plan.

Following are excerpts from the audio transmission to assist in applying and integrating this initiation in your daily life.

Affirmations:

**Affirmation #1: Seek and Know the Presence, First**

Place in your mind the thought and the words, Divine Presence.

This is the one point where all success originates and where all success emanates.

Wisdom, health, prosperity... everything that we need and require is always received as a matter of our human birthright.

It is to seek and to know the Presence, FIRST, and then everything is given.

Please rest in this contemplation.

**Affirmation #2: Divine Wisdom is to Know Thyself as the Presence**

When we realize true knowledge, all of our purposeful work will be completed instantly. This necessary knowledge comes as a result of the intuitive process of knowing oneself. To know oneself at the deepest level is to simultaneously know and experience the Divine Presence manifesting in our life.

We consciously live our eternal unity with the Presence, first and foremost, having complete and unwavering reliance upon this greater Presence and nothing else.

Of ourselves, we do nothing; it is the Presence within that does the work.

Please rest in this contemplation.
**Affirmation #3: Changing the Thought Structure**

We have never lost our capacity to have supreme intelligence. It was just over-ridden by another system, a “free will” system of thought.

We are now deleting this old system by restoring our original, more intelligent thought structure, as one with Divine Mind. This can help us reach our highest potential to where “thought” can aspire.

From this moment, we STOP all thinking from this old thought system that perceives limitation of any type. Please rest in this contemplation.

**Affirmation #4: A Reprogramming**

All we have to do is to shift the thought.

Striving, struggle, suffering... these all come from the old system of thought and of believing in limitation.

We have all that we need within our own inner powerful self. To think any differently is to invite into our life the experience of lack.

REMEMBER... We are made of Divine Essence.
REMEMBER... We are one with Divine Mind.
REMEMBER... We are divinity through the form.

Command that you see only Truth and only the Truth can manifest. See ONLY what you want to manifest. Refuse to see anything else.

When we recognize perfection, we ARE that perfection. There is no other recognition. It is all God. All God.

Please rest in this contemplation.

**Affirmation #5: Reprogramming the Cells**

Our brain is built from a blueprint of perfection. We are designed to be supremely intelligent. There is an intelligent instinct and directing influence that pervades every cell of our human form. And right now, every one of our cells wants to remember and to be restored to their original perfection. Only through a new system of thought can this happen!

Our cells can be influenced to let go of false imprints simply by talking to them. Our cellular intelligence ALWAYS responds to truth and sincerity. Communicate now with your cells asking for the full restoration of their perfection.
