

## PRECIPITATE NEW CREATION THROUGH ELECTRONIC LIGHT SUBSTANCE

### 4 STEPS

This formula represents the action of the Holy Spirit. It must only be used by those who are seriously focused on bringing the highest good to a situation and the greater whole.

**STEP 1:** In your mind's eye, make a mental picture of what you want to precipitate, what you want to create and bring forth. You are visualizing. True visualization is God's attribute and power of sight in your mind. This is a powerful means to bring new creation in visible, tangible existence.

**STEP 2:** Come into contact with your Threefold Flame of love, wisdom and power... the intelligence of Divine Presence right within you. Absolutely know and feel that the light of creation flowing through you is one with that which created the universe.

**STEP 3:** Absolutely withdraw all power from the personality as the doer. Your great Divine Presence is the only power acting.

**STEP 4:** From the three major centers of the heart, the head and the throat, you will project a stream of electronic substance into the mental picture. You will actually project a beam of light from your heart, another beam is coming from your forehead and then a third one projects from your throat.

**RESULT:** As the streams of electronic substance from the three centers coalesce, they become an outward projection of a threefold flame. This triple projection creates the permanent atom, which draws the substance of the universe around it. Then, your part in precipitating the form is complete.

## HOW TO PROJECT

Here is a little more detail on how to project a stream of electronic substance from your three centers.

FIRST: From the heart, the electronic substance of light flows out into the mental picture. This is visualized as a rose-pink ray of light. This is the cohesive power of love and the magnetic force required to alchemize the electronic light into form.

SECOND: You are using gold light in which to envelop the mental picture of what you want to manifest. The mental picture is outlined in golden light, which is the light of illuminating wisdom. You are projecting a gold ray out of your forehead and right into the mental picture.

THIRD: The blue ray is the focus of power and Divine Will. From the throat, you are projecting forth a blue ray of light, which gives the precipitation much strength, endurance, and the ability to stand against the discordance of the outer world.

Keep projecting and sustaining the trinity activity of light upon the mental picture for a few minutes.

This is a very easy formula to precipitate physical matter, but it must always be worked out in this orderly succession.

Can you imagine doing this to bring great shift in current world outplay? Unleash your creativity in the use of this formula!
