

ENERGETIC FOUNDATION FOR THE DEVELOPMENT OF OMNIPRESENCE

You live in Oneness

- * You exhibit whole self-attunement and constantly validate this connection with your all-inclusive holistic nature.
- * You have an intimate relationship with your Creator and are in direct communication with your higher heart intelligence.
- * You know that you are an aspect of source consciousness, the supreme entity that experiencing itself through your physical form.
- * You understand that your higher mind is a group mind, and this group mind is your greater aspect of self.

Your Personality Body is Mastered

- * The physical body is pure, the emotions are stable and the mental body is controlled. The fogs of emotional glamour are dissipated and the illusions of the mind are dissolved.
- * Bodily desires such as food, sexual impulses, additions and carnal desires do not control you any longer. All of these are in moderation and regulated.
- * You are thinking in wider and more inclusive terms. Your thought forms are clear and well defined, pulsating with the spirit of service. The lower centers are motivated and impelled by higher impulses.
- * You do not attach to or get pulled into the drama. You are operating from a poised stance of detached compassion. You maintain personal power. You do not allow external circumstances to affect you negatively.
- * You understand spiritual principles and know that your truth is always evolving as you expand into greater dimensions of yourself.

You are Spiritually Advanced

- * Your spiritual training is always intensifying, and the accumulation of knowledge is rapid. You can perceive beyond the form and what the human senses are reading to the brain.
- * You are not placing much emphasis on personal identity. Your entire human energy system has been spiritualized.
- * You are attuned with and receiving from not one, but many aspects of your existence, and from many dimensions of awareness.
- * You are empowered through a simultaneous existence, living more in timeless realities and having direct experiences of oneness.
- * You are able to grasp metaphysical principles and likewise wield the forces of light in service to others.
- * You are developing such mastery of thought that you no longer have unconscious negative desires. If discordant thoughts enter, they are immediately recognized and transmuted.
- * Your service to others is expanding.
- * You are highly attuned and extra sensitive to a range of subtle vibratory influences due to your increasing polarization to the Greater Self.

You Walk in Love, Compassion and Equanimity

- * You are standing steady with both feet on the ground.
- * You are able to easily concentrate yourself into the peace that is at your core.
- * Through equanimity, you are well on your way to mastering the program of duality and rising above the pull of the dense dimension of matter.
- * You are in full acceptance of the divinity inherent in all things.
- * It is through compassionate love that you are detached from the dramas of life.
- * You can maintain calm in the midst of a storm and other people's irritability. You live in the world but are not of it.

You are Experiencing Biological Morphogenesis

- * The crystalline seals of expanded perception are opening and your human biofield is quickly unlocking.
- * You are living holistically as a multidimensional creator being with many of the higher senses in development.
- * The nervous system is hooking up to its higher dimensional energy grid, new feedback circuitry in the body is activating and the bridge to the higher mind is built.
- * The intuition is functioning and telepathic communication is taking place.
- * There is mind-heart intelligence.
- * The higher heart is activated and you clearly understand the difference between human love and divine love.
- * The kundalini life force energy is flowing from the sacrum to the crown without any energetic blocks.
- * The pineal gland is open and activated and is receiving the flows of higher dimensional vision and messaging.
- * Your human body and energy system is in a state of balance, harmony and equilibrium. It is with a highly magnetic quality.
